

GOLF SHOPS PLANNING & DESIGN

THE PROCESS

Heritage Creations will carefully guide you through all phases of the design, fabrication and installation of your golf shop. Steps include the following:

Design Process

- Understand your expectations
- Prepare and submit a design contract
- Meet with you to analyze the shop space
- Outline the design criteria
- Conduct a thorough inventory analysis to determine your fixture requirements
- Prepare schematic floor plans
- Prepare detailed fixture and electrical elevation drawings
- Select the fixture material and finish options
- Prepare a comprehensive budget estimate for the project
- Prepare full design drawings

Fabrication & Installation Process

- Prepare a manufacturing agreement for your approval
- Conduct on-site field measurements
- Fabricate the fixtures
- Install the project
- Conduct follow-up customer service

In addition to the above services, we also offer the following optional services:

- Lighting planning and engineering
- Architectural renderings
- Merchandising consultation
